## Royal Crown

Hybrid Beit Alpha Cucumber

- Trialled as TCL5149
- Uniform fruit, dark green with good ribbing
- Medium open plant – easy to manage
- Suited to warm production, semi-multi set
- Good quality no neck
- Good disease tolerance to CVYV, CMV, ZYMV, PRSV, Px, Ccu.

In the SmartQ varieties a polygenic resistance of the plant against the three major viruses has been developed.

SmartQ varieties are improved cucumber lines that provides fruit quality in a more resistant plant.

Thus, the SmartQ lines develop:

- more open plants with short internodes
- smaller and darker leaves
- a more horizontal orientation of the leaves
- smaller flowers and more flowers per internode.

## TCC9317 (For commercial trials)

SmartQ range Cucumber

- Open plant with smaller leaves
- Plant structure is very suitable for easier light penetration
- Short internodes and small, horizontal leaf
- Dark green and ribbed fruit maintaining the size through the cropping cycle
- HR: Ccu; IR: CVYV / CYSDV / Px.

# Thinking quality cucumbers?

## Caronte

Hybrid Cucumber

- Recommended for Spring and Autumn production
- Strong plant that produces an abundance of dark green fruit
- Good disease tolerance to PM; CVYV and CYSDV.

## Carranza

Hybrid Cucumber

- Quality, dark green fruit with an attractive rib
- Produces good length in cool conditions
- Disease resistance CVYV and CYSDV.

## Rebecca

Hybrid Cucumber

- Adaptability in adverse conditions; Quality and Production
- Vigorous plant with short internodes
- Easy to grow in all conditions
- Excellent shape and dark green coloured fruit
- Fruit length 30 – 35cm
- HR: Cca / Ccu | IR: Px / CVYV / CYSDV.

# Thinking quality eggplants & tomatoes?

## Barcelona

Hybrid Eggplant

- Compact, open plant with early production
- Large teardrop shaped fruit with smooth, glossy, dark skin
- Firm flesh with small, light seeds
- Small spineless calyx
- Productive variety suitable for open field conditions
- Strong, upright bush.

## Lisbon

Hybrid Eggplant

- Medium erect habit plant
- Compact plant with very early production
- Excellent setting under hot conditions
- Round shape fruit – smooth shiny black colour. Firm seedless flesh. Small, green spineless calyx
- Productive variety adapted to greenhouse and open field conditions.

## Cosmos

Hybrid Eggplant

- Medium erect open plant habit
- Sets with ease throughout the plant cycle, well suited to long cycles
- Oval-long shape, fruit are spineless
- Length 21-22cm x 7- 8cm
- Very dark glossy colour that is maintained throughout the cycle
- Average fruit weight 410-430g
- Approx 75 days to maturity.

## Orestia

Hybrid Eggplant

- Vigorous plant, with short internodes and good leaf cover
- Fruit are very uniform, with very good gloss black colour
- Fruit are firm, spineless and semi long
- Fruit dimensions 23-24cm x 6-7cm
- Typical fruit size range is 450-500g
- Suitable for spring-summer cultivation in tunnel houses.

# Think **Terranova.**

## Fedele

Hybrid Tomato

- More quality to a great postharvest
- Open and strong plant type
- Excellent yields as a result of consistent fruit setting and uniform size
- Short internodes
- Bright red colour
- Very long shelf life due to tolerance to cracking
- Suitable for both cluster harvest and single picking
- The clusters are long with 12 to 16 fruit with a very elegant calyx
- HR: ToMV / Fol: 0, 1 / Pf: A-E
- IR: TYLCV / Ma / Mi / Mj.

## Ferdinand

Hybrid Grape Tomato

- Sensational eating quality - super sweet flavour due to brix over 8
- Vigorous open plant with a generative habit
- High fruit numbers as it easily splits the truss
- Uniform grape shaped fruit, size 15-20g
- Early maturing, with excellent shelf life
- Disease resistance: HR: ToMV 0-2; IR: TYLCV.
