Cos Lettuce

Gem Cos

Jeena

- Dark glossy green colour
- Early maturity with good weight
- Uniform shape and size at harvest
- Adaptable variety suitable for both hydroponic and open field production
- Bl: 16-35.

Crunchy Cos

Poco

- Mid-sized light green Romaine with good head weight
- High number of leaves
- Leaf length 25–30cm
- Extremely good tipburn tolerance and low core
- Excellent recovery when processed
- Widely adaptable in most regions.

Crunchy Cos

Timon

- Sweet tasting Cos suitable for twin packs
- Highly uniform variety, with exceptional tipburn tolerance
- Attractive dark green colour, smooth mid rib
- High number of usable leaves.

Zazu

- Midi Romaine
- Similar product model to Poco but offers slightly heavier weights through increased leaf numbers
- Mid green leaf colour with excellent taste and high leaf recovery
- Performs well against bolting
- Bl 16–23.

Cos & Iceberg Rocket

Processing Cos

Klondike

- Blonde processing Cos for warmer weather
- Produces a medium to large heart
- High leaf count and excellent weight
- Strong against bolting and tip burn
- DMR 16-28; 30-32.

Iceberg Lettuce

Taurus

- Consistent size and uniformity
- Average head weight 1kg
- Large frame suitable for fresh market use in Queensland (winter).

Iceberg Lettuce

Lopez

- Dark green colour
- Large upright frame with nice heavy uniform heads
- Very high first cut %
- Sits off the ground with a number of frame leaves
- Large heads 1kg+
- Very strong against big vein
- Suited for the warm shoulder in southern Australia

Monterey

- Large framed Vanguard style lettuce for warm season production
- Very sure heading with excellent tipburn tolerance
- Medium-large head size, short core
- Should be trialled in the Raider timeslot.
