Thinking Salad Mix?

Bruno

Baby leaf lettuce - Green Coral

- Trialled as TSM 1116
- Coral multi leaf line for direct sowing
- Glossy dark colour with great texture
- Controlled growth for a warm slot allowing for a lengthened harvest window
- Improved yield on existing standards
- 3D shape with heavily indented leaf
- HR: BI 1-9US (awaiting EU testing).

Cilla

Baby Leaf Lettuce - Oak

- A well coloured Green Oak
- Leaf margin is quite serrated and the texture is very tough
- Slower growing than some other varieties.
A feature is dark green foliage
- Very good regrowth potential
- Downy Mildew Resistances: 16, 18-20, 23-25.

Springsteen

Baby leaf lettuce - Green Cos

- Very vigorous plant
- Excellent leaf gloss with very sweet taste
- Leaves are wide, slightly blistered with a thick texture
- Best suited to cooler climates.

Jovi

Baby leaf lettuce - Green Coral

- Trialled as TSM 1112
- Coral multi leaf line for direct sowing
- Vigorous upright variety for cooler conditions
- Dark green colour with great texture leading to better shelf life
- 3D shape with heavily indented leaf
- HR: BI 1-9US (awaiting EU testing).

Oasis

Baby Leaf Lettuce - Oak

- A new high yielding Green Oak
- It has a fine leaf shape with a strong texture
- Dark green colour with light leaf cupping
- Very fine leaf attachment with a small cut surface
- Downy Mildew Resistances: 16-28.

Think 3 Star & **Terranova.**

Aretha

Baby leaf lettuce - Red Salad Cos

- Bred for improved shelf life and Mildew protection
- Very thick leaf texture and slightly blistered leaf
- Aretha has a small leaf attachment and high yield potential
- Downy Mildew Resistances: 16-28.

Barnsy

Baby leaf lettuce - Red Tango

- Frilled red incised leaf
- Excellent firm texture
- Attractive dark red colour
- 3D leaf shape with nice fine cut point
- Strong DMR resistance (1-9US) (awaiting EU testing).

Bowie

Baby leaf lettuce - Red Tango

- A strong textured Red Tango
- Offers better Mildew resistance and more intense red colour
- Highly serrated leaf with strong texture ensures that it washes very well
- Downy Mildew Resistances: 16-28

Hucknall

Baby leaf lettuce - Red Coral

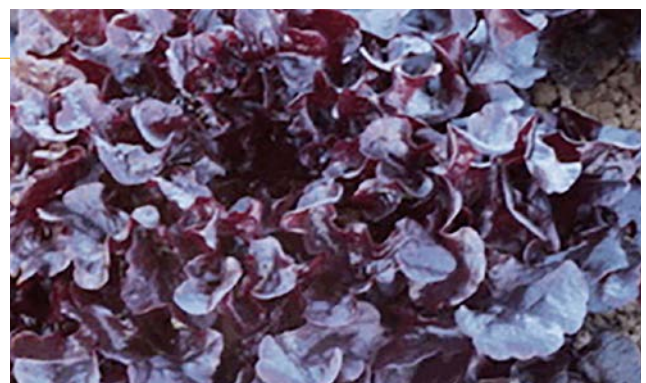

- A high yielding Red Coral variety
- The leaf texture is thicker and stronger for longer shelf life
- Suitable for multiple harvests
- Good field tolerance to Bacterial Spot
- Downy Mildew Resistances: 16-26.

Sheeran

Baby leaf lettuce - Red Oak

- A highly Mildew resistant Red Oak leaf
- Medium vigour variety with beautiful dark red glossy colour
- Strong leaf texture for a red oak with light cupping
- Multiple cuts are possible
- Downy Mildew Resistances: 16-31.

Think Terranova for Rocket, Chard & Beet

Darkita

Speedy Rocket

- Dark leaf with fine leaf serrations
- Fast maturity
- Good post-harvest storage attributes
- Aragula type.

Giuditta

Wild Rocket

- Trialed as TSM 1266
- Very attractive dark green leaf
- Upright growth habit
- Long, finely indented leaf
- Very pungent aroma/ flavour
- Excellent regrowth ability.

Pender

Hybrid Swiss Chard

- New hybrid Swiss chard with red stem
- Shows strong vigour and high yield potential
- Great texture and exceptional uniformity
- Suitable for all year-round production.

Rhubarb Red

Swiss Chard

- A reliable and well maintained commercial variety
- Selected for improved bright red stems which extend well into the leaf veins
- The leaf colour is bright green and contrasts well with the dark red stem.

Red Leaf

Baby leaf - Beetroot

- A salad leaf Beet with beautiful deep red colour
- Smooth leaves with a strong texture and upright growth habit makes harvesting easier
- It is best grown in cooler periods as the red leaf colour is lost during periods of rapid growth.
